**Practice Questions:**

- Given the following method

```
static void nPrint(String message, int n) {
    while (n > 0) {
        System.out.print(message);
        n--;
    }
}
```

What is k after the following code?

```
int k = 2;
nPrint("A message", k);
```

\*2

- Given the following method

```
static void nPrint(String message, int n) {
    while (n > 0) {
        System.out.print(message);
        n-=2;
    }
}
```

What will be displayed by the call `nPrint('a', 4)`?

\*aa
